An absolutely pristine townhouse on a lovely urbanisation in La Cala, near the beach and all amenities. As you will see from the pictures, this property is of a high standard and has its own unique style. There is plenty of space in this property and has both front and back garden spaces, perfect for relaxing and dining. Also there is Air-Conditioning in all the bedrooms, giving both heat and cold, making it comfortable to be in all year round. The urbanisation itself was built in 2003 and has everything you could possibly need. We would highly recommend viewing this property quickly to avoid disappointment later!
