Set on a lovely quiet urbanisation in La Nucia, this townhouse, split over three levels does not disappoint. Walking into the house, there is a spacious, bright living area, with guest toilet and sunroom attached. This leads onto a fabulous, entertaining kitchen with a fantastic island. All the appliances are Bosch and will be staying with the property. You then step out to a beautiful, private and sunny terrace. Upstairs, again is very bright, has two double bedrooms, both en-suite and have fitted wardrobes. My favourite area of this house is the spectacular views from the roof terrace with its panoramic sea and mountain views. This property also benefits from a private garage space, games court and stunning pool area. I highly recommend viewing this property to appreciate just what a good buy it is. Get in touch today to arrange your private viewing!
